⌂ jamaloflagos

I am an inspired frontend web developer curious about
productivity, bringing quality ideas to life and beating my former self.
I keep attention to details and love working in teams to solve problems.

Work Experience

Blackbird Internship

I toook the blackbird internship challenge on mastering React.js and Git,
created a basic web page (github repo link: https://github.com/jamaloflagos/my-app.git)

Side Project

I worked alone to build my first portfolio, a backend developer portfolio
and A&Z Bistro (a restaurant website where customer can easily order food) using react
as my stack, a calculator app(github link: https://github.com/jamaloflagos/Calculator-App.git)
and a password checker (github link: https://github.com/jamaloflagos/Password-Checker.git)
using HTML, CSS and Vanilla js

Skills

HTML, CSS, Javascript, Bootstrap, React.js, Framer Motion, Git, Vercel, Firebase
